I am emailing in reference to S2934 sponsored by Sen. Samuel D. Zurier.

I am greatly opposed to this bill and I am perplexed that any personal would be so dismissive of the rights of others in a profession that provide such much needed support for our students.

Providence in particular has some of the most experienced educators in the state and these educators steadily provide support for students, families and school communities, some with the most challenging needs.

Please work on behalf of Providence teachers to make sure that this bill remains dead on arrival.

Thank you,
Roseline Karmoh-Thorp
