You don't often get email from domhol@aol.com. [Learn why this is important](#)

am writing to strongly oppose S 2934. I do not understand why Providence teachers should be treated differently from every other teacher in the state when it comes to salary protections and due process rights. It feels unfair and targeted, and I do not believe PTU members should be penalized in this way.

As educators, we already work under difficult conditions and dedicate ourselves to supporting students every day. Weakening protections for Providence teachers sends the message that our work and our rights matter less than those of other educators in Rhode Island. I do not support that.

Please oppose S 2934.
