You don't often get email from ryanconnole@verizon.net. [Learn why this is important](#)

I write this letter in opposition to Senate Bill S2934. This bill is a direct affront to the collective bargaining rights of an established labor union local, PTU 958. Not only is it a direct attack against a specific local, but it begins the erosion of collective bargaining rights of all unions. This piece of legislation goes against one of the bedrocks of our democracy, that laws apply to everyone. This bill discriminates, specifically against only one local, and I am amazed that this piece of legislation has even gotten to this point. What other legislation targets one group of the citizenry?

This legislation is rooted in two people who were once in the education field, who now want to leave a legacy., Steve Smith, who negotiated contracts FOR the PTU, and Susan Lusi, who also negotiated contracts in multiple districts. If this is the legacy they want to leave behind, they should move on. RIFT is still working to reverse the damage that Steve Smith did to it, and if this legislation were to pass, the state would be in that same position.

Please take my words into consideration and vote this discriminatory piece of legislation down, as it will only be challenged and be struck down by the Courts in the future, if by some ridiculous chance it were to pass.

Thank you for your consideration in this matter.
