To the SENATE COMMITTEE ON ENVIRONMENT & AGRICULTURE,

My name is Daniel Heyman, and I live at 137 Seapowet Ave., Tiverton, RI 02878.

I strongly support the passage of each of these bills which I know are coming before your committee this week:

- **S2218 -- Performance Standards for Large Buildings**
- **S2529 -- Next generation buildings**
- **S2658 -- Plug in Solar**
- **S2801 -- Solar Cost Reduction Act**

These bills focus on advancing solar and building decarbonization and can make a real difference in cutting emissions and building a more affordable, clean energy future. We need the legislature to hear and see that Rhode Islanders care about these bills passing.

Thank you for helping us grow a greener future fueled by cleaner energy developed right here in Rhode Island. Please resist the pressures to back away from the clean energy future.

Yours,

--

Daniel Heyman
