Good afternoon,

I am writing to express my support for Senate Bill 2795. As a volunteer transporter for the Wildlife Rehabilitators Association of RI and as a bird and wildlife enthusiast, I strongly support this legislation. Restricting anti-coagulant rodenticides and providing municipalities with the opportunity to deploy a science-based, multifaceted approach to pest control will have benefits that span much wider than just our raptors. Other bird species, mammals, and even our own pet cats and dogs can ingest these poisons, directly or indirectly.

Please pass this bill.

Thank you,

Lauri Lee

140 Governor St, Providence, RI 02906
