

Senate Environment and Agriculture Meeting, April 15, 2026
Performance Standards senate testimony SLegislation@rilegislature.gov

In favor of S-2801 Solar Cost Reduction Act

My name is Jim Sedgwick and I live in West Warwick. Most of us agree that solar power is one of the most promising technologies in green energy. So why can't we make it easier to go solar in Rhode Island? The important changes implemented by this act cost practically nothing, and will streamline the permitting process with software that can be easily integrated into the state's existing system. We can't afford to let this vital upgrade slip away for another year. Please pass S2801 now.

Sincerely, Jim Sedgwick,
West Warwick
