I am writing to urge your support for **S-2019, S-2026, and S-2672**.

Rhode Islanders are among the most heavily taxed citizens in the country. Phasing out the estate tax, providing social security relief, and reducing the state income tax are essential steps toward long-term economic health. Please support these measures to ensure that our families and seniors can afford to stay in the state they call home.

I am writing in support of the tax relief measures being heard this week, including the estate tax phase-out (S-2019), social security tax relief (S-2026), and the phased reduction of the income tax (S-2672). Rhode Islanders are overtaxed. RI continually falls in last place year after year for the worst place for retirees to live. Stop this trend and work to make our state desirable for retirees to stay in RI and keep the money that they saved their whole lives for retirement. Retirees with money will spend it locally and support local businesses instead of being strapped by taxes. Help stop RI from being the laughing stock of the country with its over regulation, high utility costs, bridge collapses, high taxes, stolen pensions, wasted money on tolls, healthcare problems, and the list goes on....I urge the committee to support policies that let families keep more of what they earn. The people of RI want accountability and less taxes. Let's work on RI becoming the place where retirees want to stay instead of heading to Florida, Tennessee, or any other state that offers incentives for people who have worked hard their whole lives. Thank you for your service, time and efforts.

I personally have worked very hard to build a nest egg, retirement fund and to leave something for my family. Why is it that RI general assembly must stick their hands in my pocket at every turn. Bad enough I paid an insane amount of capital gains on a rental property I sold even though I took ALL the risk, dealt with all the issues that accompany owning an investment property and spent tens of thousands of dollars improving it and fire coding it. I for one am tired of being a slot machine.
