

Good evening,

My name is Jason Romblad, I am a lifelong unaffiliated voter from Woonsocket. I am writing to voice my support for bill #2541 which will repeal the act authorizing toll facilities on state roads. I am sure all you senators and reps are salivating over these toll facilities, wishing they were charging everyone that rides by them. You always seem to find new ways to tax and spend. You are also hearing a bill tonight to increase inspection costs on vehicles. Nonsense!

This legislature should work on cutting spending in this state as opposed to finding new ways to fleece the taxpayers. Pass this bill and get rid of these toll gantries.

Thank you,

Jason Romblad
