

Good evening,

My name is Jason Romblad, I am a lifelong unaffiliated voter from Woonsocket. I am writing to voice my opposition to bill #2813 which will ask the voters of RI, to borrow another \$100 million. Of course, this bill does not list what the estimated interest payments will be, but over the last 8 years, the estimated interest payments on bonds has been 59%.

It is disgusting that this legislature runs our government on borrowed money. You continue to fleece the RI taxpayer every election cycle. We pay \$100's of millions per cycle because of this nonsense. Learn to live within a budget and stop sending our tax dollars to the banks.

Unfortunately, I am testifying in another committee or would testify in person against this bill.

Thank you,

Jason Romblad
