

**Testimony in SUPPORT OF Senate Bill S. 2813: Transit Master Plan Bond Referenda**

Dear Members of the Senate Finance Committee,

I am writing to you today in full support of SB2813.

Put this to the people for a vote. Bond Referenda should go to the people. We deserve a say in how our tax dollars are spent, especially when it comes to public transportation – a necessity that has been long underfunded.

Voting against this measure would appear to disregard the will of the people. Support the people. Support your constituents. Allow us the opportunity to at least vote on this bond measure.

Sincerely,  
Lisa Jones  
Providence
