Subject: Please support S2833 - RI Local Investment Tax Credit Act

You don't often get email from selleck@gmail.com. [Learn why this is important](#)

Dear Legislators,

I wanted to add a voice to support your consideration and encourage your vote for the RI Local Investment Tax Credit Act.

Especially in Rhode Island, keeping our resources circulating within our local economy is such a key measure to support. Small businesses face challenges accessing capital, especially related to cash flow constraints that impact expansion potential. This is one of the best (and innovative) uses of a tax credit that I have come across, and ***it can only be earned after an investment has been made***. There is nothing being offered on a promise here.

Please support this bill.
