RE: Senate Bill S3132: Revisions to RIGL 24-8.1-2 Relocation of Utility Services
Support

Dear Honorable Chairman DiPalma and Committee Members:

The Rhode Island Water Works Association (RIWWA) is a vital non-profit professional trade organization representing water suppliers throughout the State of Rhode Island. Among our members, the Kingston Water District is one of the smaller systems, while Providence Water stands as our largest member.

Unbudgeted costs related to utility relocation are an ongoing challenge that places an unfair burden on customers and jeopardizes the financial stability of our utilities. It is crucial that this legislation is revised to address these issues effectively.

We urge you to support the necessary revisions to this legislation.

Jessica Lynch
President
RIWWA
