RE: Support for S2116

March 2 2026

Chairwomen Melissa Murray and honorable members of the Senate Health and Human Services Committee:

My name is Betty A Pacheco and I live in Tiverton Rhode Island.

I am writing to urge you to support S2116 (Uros), which would permit a nurse who has the appropriate knowledge and can demonstrate clinical competency to provide routine home foot care services.

Rhode Islanders deserve access to safe, routine foot care in the home. Aging in place often requires family caregivers to step in and provide personal care for loved ones, including routine foot care. Family members often lack skill, knowledge, and confidence in safely providing this care. Passing this bill and allowing nurses to fill this gap is the humane thing to do to promote the health and wellness of the most vulnerable in our state. Residents and their caregivers in RI deserve access to these services. Rhode Island is the only state in the country preventing trained nurses from providing this care.

A nearly identical bill passed in the House unanimously in 2025. Please pass this bill out of committee and to the Senate floor with a recommendation for passage.

Sincerely,

Betty A Pacheco

189 Hooper Street

Tiverton, Rhode Island
