Dear Senate Health & Human Services Committee Chair and Committee Members,

I am writing to show my support of Bill S2455. If this scalp cooling legislation is passed, it will make a huge difference in the lives of those who unfortunately face cancer. There are so many aspects of cancer treatment that we have no control over, but this one we do. We have the ability to improve the quality of life of these people who are tired of feeling like and being treated like patients and crave feeling human again. Please pass this law so more people can benefit from scalp cooling treatments who otherwise would not be able to afford it. Cancer takes so much away from a person on both the inside and outside, but being able to keep your hair and some resemblance of your old identity can help give some patients the confidence they need to keep fighting. Do the right thing and PASS THIS LAW!

Thank you for reading,

Andrea Barone
