Senate Health & Human Services Committee Chair and Committee members,

I am writing to express my support bill S2455 requiring insurance coverage for scalp cooling treatment.

This treatment can reduce chemotherapy-related hair loss and provides patients with dignity and emotional support during and incredibly difficulty time. Insurance coverage will help reduce the financial burden.

This cause is especially important to me as a family member who has had 1 too many loved ones affected by cancer, treatment side effects, and the dreaded appearance of someone who is ill. I am also a clinician who provides mental health counseling to individuals living and terminal with cancer.

I respectfully urge you to support and vote favorably for this bill.

Sincerely,
Julie Notarianni, LICSW
