

Following are the signatures of constituents who live at Halcyon at West Bay, an assisted living community at 2783 West Shore Rd. Warwick Rhode Island, who support bill SB/ 2566/HB/ 7929 it limits a facility's ability to charge rent and fees following a resident's death.

Please support bill SB 2571/ HB 7624 to increase frequency of inspections at assisted living facilities

please support bill SB 2875/ HB 7928 that allows residents and families to start councils.

Halcyon has the only independent Resident Council in assisted living in the state.

SB 2875 gives all assisted living facilities six weeks to respond to our council's concerns, and that is too long-we think one week should be enough; it should also require the facility to notify new residents of the existence of an independent resident council, which ensures that all residents can make improvements and enhance the quality of all residents.

We have made many improvements here at Halcyon we are writing to let you know that we support the following house bills HB7929, HB 7928. And Senate bills SB2566, SB 2571, SB 2875 Thank you.
