

Testimony in support of S2569: Determination of Need for New Healthcare Equipment and
New Institutional Health Services

Barbara Walsh, 62 Frederick Street, Warwick, RI 02888

Date of Hearing: April 9, 2026

To: Chair Murray and the honorable Members of the Senate Health and Human Services
Committee

Large buildings emit an enormous amount of carbon and need to start transitioning off
fossil fuels – we all know this. This is a good bill, providing time for the planning of such
transitions when significant renovations or new buildings are being planned. Please pass
this bill.
