The Honorable Melissa A. Murray
Rhode Island State Senate
Senate Health and Human Services Committee
(Submitted electronically Slegislation@rilegislature.gov)

Dear Chair Murray and Members of the Committee:

Please accept the Rhode Island Health Center Association's letter in support of Senate Bill 2878, which seeks to expand reimbursement for Public Health Dental Hygienists (PHDHs) to include other insurance providers or third-party payers, such as Medicare.

Without access to dental care, many preventable oral health conditions often escalate, leading to unnecessary pain, suffering, and even systemic health complications. With their specialized training and expertise, PHDHs are uniquely positioned to bridge gaps in care by providing essential preventive services, such as screenings, cleanings, and education, directly within the community.

Allowing PHDHs to bill other insurances would help close the gap for underserved populations and expand the availability of dental care services to all Rhode Islanders. Thank you for your consideration.

Sincerely,

M. Campbell

Melissa Campbell
Policy Manager
