You don't often get email from warddavid582@gmail.com. [Learn why this is important](#)

Dear Senators,

As a practicing dentist in Woonsocket for 38 years, I am respectfully asking you to please support our legislation. The insurance companies have made choice by individual patients impossible by limiting the reimbursements they receive when seeking the dentist of their choosing. This is about patients rights and their ability to not be penalized for sticking with their own dentist if the office goes out of network. This would have no impact on Delta Dental whatsoever as there are only a small fraction of RI dentists who are brave enough to break free from Delta's monopolistic grip.

Thank you for your consideration.

Dr. David Ward

Woonsocket, RI
