RE: Oppose S2035

Dear Chairman Bissailon and Members of the Committee,

On behalf of the Housing Network of Rhode Island, our member agencies, and the low income Rhode Islanders we seek to serve, I write in opposition of **S2035**, legislation that would limit the by right provisions for the development of ADUs to owner occupied properties only where residency had be established for at least a five year period.

During the last five legislative sessions, the growing need for more affordable housing in this state has taken center stage with policymakers. Historically low inventory of homes for sale and for rent coupled with exploding demand for housing have driven housing costs out of reach for many Rhode Islanders, particularly our lowest income households. Decades long reductions in building permit activity, restrictive land use policies set forth by municipalities, low vacancy rates, the state's chronic underinvestment in affordable housing and inadequate worker wages have all been major contributing factors to the lack of available homes and housing unaffordability. **The only way to solve our housing crisis is to start building our way out of it.**

S2035 is a step in the wrong direction, only re-affirming many of the local practices that have in fact been a primary driver of our housing crisis. Given the newness of the ADU law, there is little to no statewide data available that demonstrates there are rampant issues/abuse that necessitate such legislation at this time. We are concerned that the premature introduction of such limitations will negatively impact ADU production overall.

For these reasons, we respectfully oppose **S2035** and urge the Committee to hold the bill. I am available to answer any questions you might have and can be reached at 401-721-5680 ext. 104 or mlodge@housingnetworkri.org.

Respectfully submitted,

Melina Lodge, MCP
