You don't often get email from terrwright.a@gmail.com. [Learn why this is important](#)

Good evening Senate,

I am writing in support of S2264.

At such a pivotal time in RhodeIsland history, S2264 is a lifeline to many of our unhoused and vulnerable residents. I firmly believe that homelessness is a systemic issue that jumps from season to season, from hot weather to freezing weather with no real working solutions that meet the needs of our unsheltered and homeless, and Rhode Islanders living paycheck to paycheck and those who just can't afford to live in RI without any income.

I am asking that the Senate pass this legislation so that our most vulnerable families, students, children, War Vets and working families have a fair chance at a better tomorrow. The future is now.

Thank you, for allowing my testimony and advocacy to be entered into record.

Sincerely,

Terri Wright
