**Date:** Thursday, March 26, 2026 1:20:06 PM

---

Dear Committee Clerk Rocha,

I oppose S2269 Requiring cities to disclose violations immediately to tenants undermines, the already established legal process. A landlord should have the ability to receive notice and remedy the problem before a tenant is notified. At times a description of a violation may sound more intense than what the reality of the situation is. Oftentimes, a violation can be for something that is simple and a byproduct of normal wear and tear or even storm damage. These scenarios are very different than negligence. This could lead to negative landlord-tenant relationships even when a property owner is responsive.

Thank you for your consideration.

Sincerely,

Anthony Thompson
