Subject: OPPOSE S2269
Date: Tuesday, March 24, 2026 7:50:09 PM

[You don't often get email from lhcwdx@hitmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Dear Committee Clerk Rocha,

I am a small landlord in RI. I am strongly oppose s2269!

I oppose S2269. Requiring municipalities to notify tenants of alleged housing violations before landlords have an opportunity to verify or remedy the issue is premature and may create unnecessary confusion. In many cases, a violation may pertain only to specific units or tenants, not the entire property, and broad notification can lead to misunderstandings among unaffected residents.

Providing landlords with the initial opportunity to assess and address potential violations supports more efficient resolution and clearer communication. Direct notification to tenants at an early stage may inadvertently foster tension, as tenants could interpret the notice as inaction or neglect, even when landlords are actively working to resolve the issue.

For these reasons, I respectfully oppose this legislation. Thank you.

Sincerely,

Linda Cheng
239 High St
Cumberland, RI 02864
