Dear Committee Clerk Rocha,

Please do not pass S 2269. It is not necessary. This bill if passes would provide housing code violation notices to tenants before a landlord has had time to correct the violations. There is already a process in place for notification to a landlord and timeframes and penalties if a landlord does not comply. Notifying the tenants would not improve this process.

Please do not pass S 2269.

Thank you for your consideration.

Sincerely,

janice Hannert
