Subject: **Support S3143 and other RI Voting Rights legislation**

As a resident of RI, I urgently request that our state legislature support the RI Voting Rights Act (S3143) and any other legislation (possibly H-8334) that will strengthen and safeguard our electoral processes as managed locally within the state. I am concerned about protecting voting rights - indeed encouraging voting among all those who are currently registered and those coming forward. I am firmly against impediments to voting, such as more stringent ID requirements. I am also vehemently against providing locally maintained records to federal offices where they do not appear to be responsibly used. I also would like to ensure that our elections do not become militarized.

Thank you for listening and acting to protect our tights and uphold the Constitution.
