At a time when basic voting rights, and indeed, the foundations of democracy itself are under attack by the President of this country, it's imperative that S3143, the RI Voters Rights Act, becomes law so that the same protections against discrimination as were contained in the John Lewis Voters' Rights Act can be enshrined in the laws of our state.

It's imperative that this becomes law without delay and as our elected representatives and members of the Senate Judiciary, we are relying on you for your support to make this happen. It's critical that despite the outrages perpetuated by the President, Rhode Island remains a beacon of democracy where disclination of any form is both illegal and is not tolerated.

Thank you,
